Request for Comments

The Kansas Department of Health and Environment is soliciting comments regarding a proposed air quality construction permit. Northern Natural Gas Company has applied for an air quality construction permit in accordance with the provisions of K.A.R. 28-19-300 to install/ replace six compressor engines at the Finney County #2 Compressor Station. Under the Clean Air Act, PSD evaluation is required since the facility has the potential to emit 250 tons or more per year of air pollutants. Emissions of oxides of nitrogen and carbon monoxide were evaluated during the permit review process. The source has netted out of the PSD review. There were enough decreases due to removal of existing engines that the resultant emission increases due to addition of the proposed engines were below the de minimis levels of the PSD reviewed.

Northern Natural Gas Company, Liberal, owns and operates the stationary source located at Section 15, Township 25 South, Range 34 West, Holcomb, Finney County, at which the PSD evaluation and compressor engines replacements are to be installed.
